

Centralize your market data management inventory to navigate complex regulations and keep costs in check.

Automation from Procurement to Payment

Market Data Procurement

Centralized end-user portal for requesting marketdata services through vendor APIs to allow up-to-date inventory management.

Certification and Compliance

Validate inventory around specific parameters related to inventory cost, employment dates, duplicate services or usage metrics.

Index License Management

For both the buy side and the sell side, document and manage your firm's index licenses to ensure compliance with audits and upcoming regulations.

Intelligence and Reporting

Enable advanced problem solving around common management issues within market data through reliable reporting and business intelligence tools.

Expense Management

Automate the audit, approval and cost allocation process and interface with corporate finance and AP platforms for seamless chargeback and payment.
