

Securing the Mobile Enterprise

Calero offers the latest best practices for Mobile Device Management (MDM) with seamless software security solutions to manage your organization's mobile devices and content. In the same way you protect technology channels like internet or intranet, we secure your mobility ecosystem. It's a flexible solution we design to give you peace of mind that your mobile enterprise is protected.

- **Flexible Approaches for Every Enterprise**

Calero partners with leading MDM providers to give you the best solution. Our expert consultants support best practices and follow a proven methodology every step of the way – from design, installation, and training, to providing ongoing user support packages. Whether your

enterprise policy supports corporate-owned devices, individual-owned (BYOD) devices, corporate-owned, personally enabled (COPE) devices, individually owned stipend devices, or some combination thereof, Calero simply and effectively manages every mobility situation.

- **Centralized Visibility and Control**

Our solution includes a real-time dashboard for centrally managing every mobility aspect, including device compliance/non-compliance, device updates and changes, as well as software updates – all within a secure environment. Our experts respond appropriately to each security alert and give your enterprise the support it needs. The Calero team also responds quickly to help employees experiencing problems requiring immediate attention like international travel, lost or stolen devices, or new devices needing configuration for use. Our solution includes technology and support to keep your enterprise compliant with industry standards and, more importantly, to provide your organization assurance that corporate data is secure at all times.

Calero's solution for protecting enterprise mobility includes:

Consulting services for MDM, MAM, MCM, BYOD, COPE:

Our expert team works with your enterprise to design a strategy and implement a solution that meets your goals for Mobile Device Management, Mobile Application Management, Mobile Content Management, Bring Your Own Device or Corporate-Owned, Personally Enabled devices.

MDM Installation, Configuration:

We offer several delivery models for Mobile Device Management, including on-premise or cloud-based, as well as varied pricing models, including monthly or perpetual. Calero can manage the entire configuration process or some portion – whatever approach best suits your needs.

MDM Training:

Educating your mobile workforce on corporate mobile policy and procedure is critical to a successful MDM implementation. Calero provides virtual, real-time, or on-site training to your IT staff.

MDM Ongoing Support, User Administration:

Keeping up with all the changes in the rapidly evolving mobility landscape can be challenging. With Calero in your corner, you'll know that your employees' or administrators' devices will be working and secure at all times.
