With Henry Schein®

The Challenge

As global wireless operations expanded, Henry Schein faced challenges with manual invoice tracking, limited spend visibility, and inconsistent reporting across regions. The organization needed a more centralized and scalable approach to improve operational oversight and cost control.

1. Limited visibility into global wireless spend and inventory
2. Manual invoice tracking created inefficiencies
3. Needed scalable automation and centralized reporting
4. Required stronger auditing and spend management controls

Three Things Every Executive Should Know

1. **Visibility is power.** Without it, waste thrives and costs spiral.
2. **A scalable partner is a long-term partner.** Choose a platform provider that supports your global footprint with proven experience and expertise in global end-user support.
3. **A single source of truth is a necessity.** Without it, global technology expense centralization and efficiency is out of reach.
